## BOURBON AND RYES

Bourbon whiskey is a type of American whiskey – a barrel-aged distilled spirit made primarily from corn. The name derives from the French Bourbon dynasty, although it is disputed whether Bourbon County in Kentucky or New Orleans is the source of the whiskey's name. It has been produced since the 18th century, although the name "Bourbon" was not applied until the 1820's and the Kentucky etymology was not advanced until the 1870s. While it may be made anywhere in the United States, it is strongly associated with the American South in general, and Kentucky in particular.
